

407 – EPDM Semi Closed Cell Foam Grades

Temperature Range (depending on grade)

Constant Low: -45°C Intermittent Low: -55°C
Constant High: 105°C Intermittent High: 120°C

These EPDM foams are high performance materials for demanding environmental conditions. Their inherent low temperature and exceptional UV and ozone resistance make them candidates for exterior applications in architectural, automotive and appliance applications. These are good performers in most areas not requiring resistance to certain oils and hydrocarbon liquids.

Our Ref	Density Kg/m ³	Shore	ASTM D 1056-68
07-96A0	96	5	1A0
07-96A0	96	7	1A0
07-100A0	100	8	1A0
07-130A0	130	10	1A0
