

## 409 – NBR Closed Cell Foam Grades

Temperature Range (depending on grade)

Constant Low: -54°C

Constant High: +93°C

These materials are high performing premium elastomeric foams and are specifically formulated using 100% Buna N as an elastomer. These grades perform very well in applications requiring resistance to petroleum liquids, certain solvents and elevated temperatures. Uses include applications in fuel systems, engines and transmission as filter seals and bearing seals.

Our Ref	Density Kg/m <sup>3</sup>	Shore	ASTM D 1056-68
09-216B2	216	55	2B2
09-254B3	254	65	2B3

Full data sheets for all grades are available on request.
